

Anti-Allergy Dust Bag

s-bag® Anti-Allergy protects your health, contributing significantly to the hygiene and air purity of your home, while still maintaining excellent performance. s-bag® Anti-Allergy reduces the exposure to allergens and the risk of allergies in your family.

Product Benefits & Features

MAXIMUM HYGIENIC
FILTRATION

High filtration capacity

s-bag® Anti-Allergy has high filtration to capture pollen, dust particles, dust mites, mite allergens and cat allergens as small as 1 micron (15 times smaller than the diameter of a human hair). This level of filtration is of benefit to asthma and allergy sufferers.

CHANGE BAGS
2X LESS OFTEN*

Powerflow™ Design

Patented 3D folding ensures optimal unfolding: keeps the suction power high and prevents clogging

HYGIENIC
CLOSING FUNCTION

Improved closing system – durable and hygienic

The closing system has been re-designed, and made more rigid by using stronger material and a new sealing technology. This to ensure the s-bag® closes every time and doesn't break or leak. This vacuum bag is easy to fit in the cleaner, and hygienic as the bag automatically seals when removed,
