

**Efficient cleaning, now effortless**

Our bagless vacuum cleaner is built to use less energy and features an effective dust filtering system. Great performance to help you maintain a clean home, every single time.

**Product Benefits & Features**

**An air-tight design for efficient cleaning**

Our vacuum cleaner has an air-tight design to provide you with a more effective clean and minimise the energy consumed. Making it efficient in more ways than one.

- Bagless
- Integrated parking slots
- Power regulation
- Soft wheels
- Upholstery nozzle

**Quadruple-filtering**

Our bagless vacuum cleaner uses a 4-step system to effectively separate dust. Double Step Cyclone technology splits large and small particles for a more efficient, better filtered clean.

**Clean more in one go**

You can vacuum for longer\* at high performance, even when near full capacity and reduce the need to empty the container often.

\*Compared with AeroPerformer Cyclonic™ on clogging performance and suction power.

**Less effort with more capacity**

The high-capacity dust container can store up to 1.8 litres, so it requires emptying less often. Single button release to carefully dispose your dust in an effortless way.

**Large wheels for better stability**

Large rotary wheels prevent the vacuum cleaner from getting obstructed, meaning improved stability around the home.

**Product Specification**

Brand	Electrolux	Power outlet	No
Filter exhaust	Washable Hygiene Filter E12	Wheels	Soft
Noise level cleaner complete dB(A) - (IEC 60704-3)	80	Cord winder	Yes
Action radius	7	Cord length external	5
Dustbag full indicator	None	Weight floor polisher only w.o accessories and packaging	4.5
