

Your everyday, dried with care

Our excellent PerfectCare 600 tumbler dryer with SensiCare System identifies the moisture level of each load using special sensors and adjusts the drying time accordingly. Meaning even the smallest load is never exposed to too much heat.

Product Benefits & Features

Less time, more care

Our SensiCare System adjusts the drying time to the moisture levels in each load. Saving time and energy without compromising on care.

- Condenser dryer: the moisture is condensed into a water container, no outside ventilation required

- Sensor dryer: the dryer senses when the clothes are dried to the level specified
- Additional time controlled drying programs
- Reverse tumble action loosens the clothes and prevents tangling and creasing
- Display type: Touch LCD
- Delay start option

Your style, your schedule

Our Delay Start helps you adjust the start of the drying cycle to suit your schedule. Simply enter the time you would like drying to automatically start and leave the machine to do the rest.

Set the angle of your door to suit

The door on the Electrolux tumble dryer can be cleverly adjusted during installation to open at four different positions. Meaning the best possible fit with your other appliances, whether they are stacked on top of each other or adjacent to one another.

Delicates, now dried gently

With our Delicate Option even delicates can be entrusted to the drum. The programme reduces the temperature in the chosen cycle to provide gentle care during drying.

Your style, dried effortlessly

The extra-large door ensures everything can be accommodated with ease, even oversized or heavy garments.

Product Specification

Brand	Electrolux	Indicator drying status	Drying, Cool down, Anti-crease/end
Drying technology	Condense	Indicators other	Filter, Tank, Condenser
Full load capacity kg	7,0	Included accessories	Direct drain hose
