Every fibre reached, every item softer

Our SoftPlus Option pre-soaks and distributes clothing evenly. Ensuring every fibre is reached and that every item in the load feels soft and smells fresh for longer.

Add steam for truly clean

The AntiAllergy Vapor 60°C washing programme provides steam at the end of the cycle, to give your clothes a hygienic and efficient clean. This helps reduce bacteria and allergens from your clothes, and supports better laundry hygiene.

Less energy, more time

Our Eco TimeManager let you adjust the length of the wash cycle to the time you have available. Saving you both time and energy with absolutely no compromise on the thorough wash your clothes receive.

Big on clothing care, slim in size

Keep your clothes looking and feeling sensational with the slim washing machine from Electrolux. Its flexible design saves you space, fitting into areas too small for standard-sized appliances. And with no compromise on care, you still enjoy great results, every time you clean your favourites.
