

Your style, completely preserved

You can be assured that clothes will stay looking and feeling great with the DelicateCare System in our PerfectCare 800 tumble dryer. It adjusts to the right temperature for the garment while the motion of the drum is tailored to the specific fabric. Meaning items are cared for in just the right way, even those you would never

Product Benefits & Features

Customised cycles, tailored care

Our DelicateCare System adjusts temperature and motion to fabric for exactly the correct care. The quality of clothes preserved.

- Heat pump technology achieves unprecedented energy efficiency
- Sensor dryer: the dryer senses when the clothes are dried to the level specified
- Additional time controlled drying programs
- Reverse tumble action loosens the clothes and prevents tangling and creasing
- Display type: Touch LCD
- Delay start option
- Internal light for optimal visibility in the tumble dryer

Precision drying for every load

Our SmartSense System detects the humidity of each item in a load. This means that all clothes are evenly dried and protected from overheating for absolute drying precision.

Less heat, more care

Our GentleCare System dries clothes at nearly half the temperature of conventional tumble dryers so that they are never exposed to unnecessary heat.

Dry even more, evenly and conveniently

Our Bed Linen XL and Mixed XL programmes are able to efficiently dry even more without the need for multiple cycles. Saving time and energy. It's a convenient and customised solution for the everyday.

Less time, more care

Our SensiCare System adjusts the drying time to the moisture levels in each load. Saving time and energy without compromising on care.
